

Literacy and Intervention

RTI Package™ for the Academy of READING®

“Thanks to the breadth and depth of the *Academy of READING*® software package we are on the cutting edge of RTI implementation. Our teachers appreciate that they use only one complete package to administer universal screenings, provide individualized content interventions, and produce the progress monitoring data needed to justify moving up and down the tiers of our academic pyramid of interventions.”

Dr. Barry O’Neil,
Asst. Superintendent,
McDuffie County Schools, GA

Simplify RTI with One Complete Solution

Close the achievement gap with a scalable, comprehensive and efficient Response to Intervention solution. The *RTI Package*™ for the *Academy of READING* is the first completely web-based environment to connect the key components of RTI, giving educators tools for:

- Universal Screening
- Scientifically Based Intervention
- Progress Monitoring
- Data-Driven Decision Making
- Implementation Best Practices

KEY COMPONENTS

Universal Screening

Establish a baseline for reading skills with web-based tools that save time and increase accuracy.

- Generate snapshots of student reading proficiency with online assessments
- Compare individual, class, and school results with national or district norms
- View results from our Oral Reading fluency probes to:
 - Easily place at-risk students into an appropriate intervention such as *Academy of READING*
 - Track progress over time
 - Measure students' comprehension level

The Change-the-Gap Report shows snapshots of your student's performance over time.

- 1 View individual student benchmark
- 2 Compare results against your district or national norms

Progress Monitoring

Assess and track student progress while adhering to best practices in the RTI model.

- Schedule oral fluency assessments as often as needed
- Score assessments online at your convenience
- Run additional diagnostics on specific skill gaps
- View individual or classroom data at a glance through the RTI Dashboard

The RTI Dashboard provides one-click access to progress data.

- 1 Test result – See a student's oral reading fluency score
- 2 Event line – Show events such as interventions or curriculum changes
- 3 Goal line – View the student's individual Average Weekly Improvement (AWI)
- 4 Trend line – Determine whether the intervention is working

Scientifically Based Intervention

Provide intervention with the *Academy of READING* for intensive training that builds proficiency in all five reading foundation skills outlined by the National Reading Panel.

- Target Tier I at-risk, Tier II, and Tier III students with individualized training programs
- Automatically set individual achievement goals
- Get detailed training data for differentiated instruction
- Optimize instructional time with use in labs, classroom centers or after school

Students work on individual skill gaps, building proficiency in phonemic awareness, phonics, fluency, vocabulary, and comprehension.

- ① Exercises in letter-sound matching develop essential decoding skills
- ② Comprehension practice incorporates corrective feedback

Data-Driven Decision Making

Access timely data and share information to determine the best course of action for each student.

- Track Annual Yearly Progress (AYP) goals through school and district level progress reports
- Communicate regularly with parents and guardians using reports in English and Spanish
- Document events and decisions with the student case management tool
- Import oral fluency data from other applications such as DIBELS, Excel or AIMSweb®

Using the secure RTI Dashboard, local student support teams can easily document a student's case history and collaborate – from anywhere on the district network.

- ① Adjust individual goals quickly and easily
- ② Generate Progress Statements automatically based on student data
- ③ Document student progress indicators and any events in minutes

Implementation Best Practices

Leadership teams and implementation sites finalize plans and learn strategies for successful RTI management through the comprehensive RTIWORKS™ program.

Three packages are available:

RTIWORKS DISTRICT – Develop expertise to finalize plans, determine processes, and manage school rollout. The program includes workshops with Dr. John McCook and Associates and the development of the district fidelity framework.

RTIWORKS SCHOOL – Participating campuses implement best practices through professional development and ongoing data analysis.

RTIWORKS EXPERT – Educators with experience developed through RTIWORKS School gain advanced knowledge in areas such as ongoing RTI data management, collaboration, and involving parents and community.

Literacy and Intervention

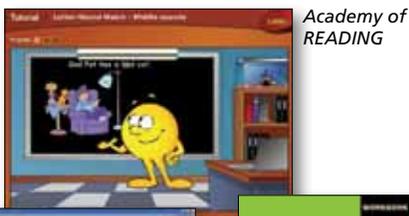

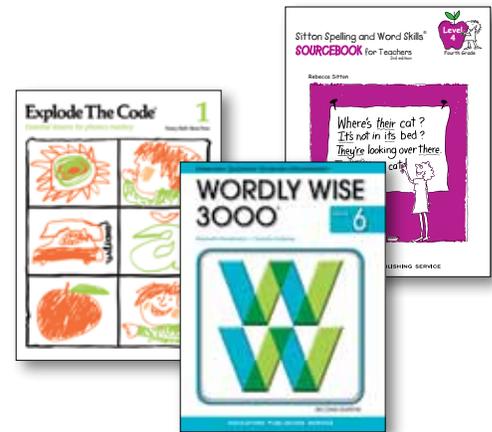

Who We Are

EPS® is now known as School Specialty® Literacy and Intervention, publisher of K–12 blended-media reading and math curriculum. These trusted materials build core skills and close the achievement gap for struggling students. Our comprehensive print and technology programs give K–12 educators powerful instructional tools that deliver high-quality curricula in the most effective modality for all students.

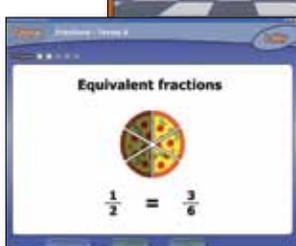

✓ BUILD CORE READING AND MATH SKILLS

Literacy subject areas such as vocabulary, comprehension, spelling, and math are critical in today's world of high-stakes tests and accountability to federal educational initiatives. Our best-selling instructional materials enable educators to provide direct, systematic instruction with scaffolded support and differentiated lessons.

Our leading programs such as *Wordly Wise 3000*®, *Sitton Spelling and Word Skills*®, and *Explode The Code*® offer teacher-led instruction through targeted, direct instructional methods. These resources provide engaging, on-level instruction that prepares students for academic success.

Academy of READING

Academy of MATH

✓ CLOSE THE ACHIEVEMENT GAP

Our Intervention programs are rooted in neuroscience and developed from more than 50 years of practical experience with learning differences. From screening through to intervention, progress monitoring, reporting, and professional development, we offer an integrated approach to Response to Intervention (RTI) that simplifies every stage of the process.

Our top Intervention programs include *S.P.I.R.E.*®, *Academy of READING*®, *MCI*, and *Academy of MATH*®—all proven programs that target the specific needs of struggling students to help them reach academic success.
